

SOL Desktop Laser

The SOL laser delivers true portability, power and precision, along with enhanced ergonomics, a simple interface, and a high-contrast blue aiming beam designed to make laser dentistry easier than ever. The SOL is an affordable, non-intimidating diode laser that the entire team can use.

- Convenient laser solution for the entire team
- Disposable tips for all periodontal and standard applications
- Move easily between operatories with 3 hours lasing time on each charge

Why laser dentistry?

Dental professionals who use lasers perform more procedures, in less time, with better results than those using traditional methods.

Patient Comfort

- Healthier approach to tissue management*
- Minimal need for anesthesia
- Reduction in post-op discomfort

Production Efficiency

- Improved access and field of vision
- Decreased treatment time in many cases
- Reduced impression retakes

Clinician Benefit

- Seamless integration into the practice
- Incremental revenue through additional procedures
- Increases patient acceptance
- Generates patient referrals

*As compared to a scalpel or electrosurge.
